Title of ACM publication:

Craig-Boris '19: Craig's test event for Boris LaTeX Code 2 Proceedings

Your paper "TESTPAPER- Creating IoT-ready XR-WebApps with Unity3D" was accepted for the Craig-Boris '19 conference. You must formally grant permission to ACM to publish this contribution before ACM can proceed with production.

Through an agreement between and ACM, all affiliated corresponding authors can make their articles Open Access at no additional cost. This agreement enables you to retain your copyright and have a Creative Commons license assigned to your article, providing for worldwide open readership as well as computational and other uses. To confirm your participation in this program:

- · Select Institutionally Paid Open Access from the list of rights options below
- As per ACM publications' policy, you and your co-authors have the option to choose from any rights choices
 afforded to all authors of ACM published works.

What rights do you want to grant ACM?

• Institutionally Paid Open Access - The authors retain all rights to the work and give ACM non-exclusive permission to publish. This option allows the authors to display their choice of Creative Commons license on the work (license details below).

Exclusive License to Publish - The authors retain copyright to the work and give ACM an exclusive license to publish. This option gives ACM the right, but not the obligation, to defend the work against improper use by third parties.

Ocopyright Transfer - The authors transfer the copyright of the work to ACM. This option gives ACM full rights and permissions to the work, which includes an obligation to defend the work against improper use by third parties.

Using the options below, select your preferred Creative Commons license in order to fully enable computational uses and other productive reuses of your work. You may use the radio buttons (circular) and tick boxes (square) to change the license type. The icon for the license you've chosen, and a link to more details about the license, appears below the tick boxes.

CC BY is the preferred and default Creative Commons license for your institutionally funded Open Access article. As part of the agreement between and ACM, whichever license you choose will be added at no cost to you.

To learn more about Creative Commons licenses and which is appropriate for your work, please visit https://creativecommons.org/about/cclicenses/. The Creative Commons license you select will be displayed on the published version of your paper in the ACM Digital Library.
